

Three Sisters Natural Landscapes

Tips for Planting a Pollinator Garden

More info: 3sisters.ca

1. Choose a sunny spot that is safe from wind
2. Include a variety of flower types, colours, and shapes
3. Plant flowers that bloom at different times
4. Plant in clusters
5. Plant native species
6. Avoid using pesticides or insecticides
7. Make sure to include food sources for all life stages
8. Provide sources of water for pollinators
